

# Roller Grilles & Shutters - Motor / Switch Wiring Detail & Dimensions

The information provided on this sheet is for a guide only.

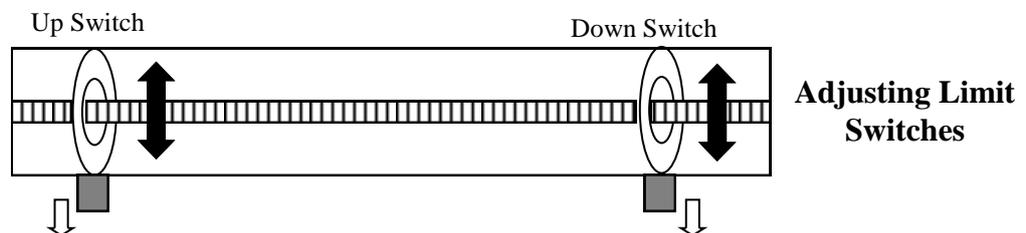

Krgs take no responsibility for any damage caused or that may arise from the use of this information

**IMPORTANT** To commission UPS—push “On button” on top front of unit, one beep should sound.

Push same button again and hold in till “2 beeps” are sounded– the unit should now be in UPS mode

**Note** UPS—battery back up unit requires minimum 6 hrs to fully charge, Unit and POWER should be left on for this period, shutting power down before hand will deplete battery capacity and unit may not operate under these conditions.

Pull the clin outwards While rotating the wheel indicated by the arrow
