

# SPECIFYING ROLLER SHUTTERS AND SECURITY ROLLER GRILLES

**KRGS**

[www.krgsdoors.com.au](http://www.krgsdoors.com.au)

## INTRODUCTION

---

Protecting your business from theft is critical. No matter the location, every business is susceptible to crime, with the most recent ABS statistics revealing that the largest proportion of all property crimes, 31%, occurred in retail settings.

Taking adequate loss prevention measures is essential for preventing these crimes. Loss prevention measures and strategies include security guards, surveillance systems, and for after-hours protection a reliable security shutters solution is central to maintaining safety.

When specifying a security shutter for a retail space, there is no one-size-fits-all-solution, with a wide range of options available.

*As industry leaders in roller shutters and security roller grilles, Kings Roller Shutters & Grilles provides a complete range of security solutions for Australian businesses.*

“ The largest proportion of all property crimes, 31%, occurred in retail settings. ”

## FOLDING DOORS

Folding and concertina commercial doors from KRGS allow for security in any shape and at any length. With no floor track, any potential trip hazards are eliminated leading the way for safety and protection.

### THE RANGE INCLUDES:

**Folding Closure:** Folding Closures allow you to have security concertina doors in any shape and any length. These commercial folding doors have no floor track, eliminating any trip hazards.

Custom made in standard 150mm or 300mm wide panels these concertina doors allow your shop front to become an illusion, and are commonly used in major shopping centres and duty free airport stores.

**Security Trellis Barrier – Available as mobile unit or standard fixed unit:** The mobile concertina screen trellis system is ideal for keeping your business safe due to its strength and functionality. Versatile in its applications, it is ideal for doorways and windows in shops, pubs, clubs, schools, offices and many more commercial applications.

The concertina security trellis door is heavy duty and fully-framed for extra protection. Along with the expanding trellis security door, it is the only trellis door on the Australian market tested to Australian Standard AS 5039 making it suitable for high level security in shops, banks, government buildings, hospitals, clubs, sports arenas, airports, railway stations, heritage buildings.

**Clearglide Bi-Folding Door:** The innovative Clearglide is a versatile door and wall system free from mullions and restrictive pillars, providing the ultimate in practical side folding doors. It allows a business to open to passing trade and enjoy the freedom to provide a contemporary al fresco atmosphere or easily partition large areas within your building to create several rooms that can be easily opened or closed.

### PROJECT:

#### FOLDING CLOSURE

#### @ QUAY EATERY CIRCULAR QUAY

**Client:** Chesterton International

**Location:** Circular Quay NSW

Quay Eatery café at Wharf 5 Circular Quay Sydney required a security solution that provided a full frontage opening with no head room. At over 17 metres long and 2.6 metre high, this was no easy task. Teaming up Chesterton International KRGS Doors provided and met the requirement.

The store previously had glass bi fold doors in place which the owner and staff found to be too heavy and cumbersome to operate. KRGS Doors 150mm panel Folding Closure bi fold concertina doors were specified to provide a strong yet lightweight solution, designed to allow all staff to operate the door easily when opening and closing.

A clear polyethylene infill allows light through while offering full security, while also delivering impact strength well beyond that of acrylic.

## ROLLER SHUTTERS

KRGS Roller Shutters provide maximum security and privacy at a very competitive price range, with 3 different types of shutters to suit any application.. Counterline Shutters suit smaller architectural openings such as fire hose reel cabinets or shop kiosk. The Series II Aluminium Roller shutters can be either solid or perforated slat and applied to shop fronts, reception counters and majority of door openings.

### THE RANGE INCLUDES:

**Kiosk Shutters Counterline Shutters:** Suitable for smaller architectural openings and available in a large range of profiles - from sleek contemporary and flat, to the more traditional and classic - the diverse, fresh and modern palette of colours and finishes ranges from light neutrals to sophisticated dark tones and matte through to glazed finishes.

**Series III Aluminium Shutter:** The Series III is especially suited to department store frontage where maximum opening area is required. Series III commercial roller shutter doors can have solid slats, large slots or multi-hole perforations.

**Polycarbonate Clearvision Shutters:** Clearvision Roller Shutters enable clear vision of merchandise whilst providing security and protection from the elements and dust. The design of the aluminium roller shutter slats alternated with the full width clear polycarbonate slat allows these roller doors to give you an eye catching dynamic door.

### PROJECT:

#### ROLLER SHUTTERS @ ZARA CHATSWOOD

**Client:** ZARA

**Location:** Chatswood NSW

The Spanish fashion chain opened its 7th Australian Store when the shutters went up early this year. The new Zara in Westfield Chatswood covers 1,300 square meters spread across two levels, entrances on both, and 24 fitting rooms in total.

The premises is secured by KRGS Series 3 Roller Shutter doors, with the black powder coating complementing the style and elegance of the Zara brand.

## ROLLER GRILLES

KRGS security grilles allow airflow and ventilation as well as visibility without sacrificing strength and security.

### THE RANGE INCLUDES:

**High Security Grille:** Single economical roller grilles can be manufactured up to a width of 3.6m. They have the capacity to be fitted to larger openings with multiple doors and can either be manually operated or electronically motorised.

**19mm Grille:** Economical, lightweight and sturdy grilles that are ideal for large to medium size openings requiring single span installation and ease of operation, allowing for maximum airflow and visibility without abandoning strength and security

**Ultimate all aluminium grille:** Ideal for shopping centres, hotel bars, arcades and kiosks, the Ultimate all aluminium grille is offered in either manual operation or electric motorisation. Clear anodised is the standard finish, with Dulux powder coatings also available.

### PROJECT:

#### 19MM GRILLES @ WESTFIELD LIVERPOOL

The new Myer Store at Westfield Liverpool required a fresh, stylish security solution. Westfield engaged KRGS Doors for a new 19mm Grilles for the shop front doors, steel shutters for the loading dock and Counterline shutters for the fire hydrant cupboards

The iconic store set out over two levels in the heart of the Shopping Town needed a renovation to keep up with the style Westfield wanted to achieve. Myer is Westfield Liverpool's major retail anchor and need KRGS Doors to come up with something special.

Adopting a merged 19mm Grille to allow light and airflow and Series III Shutter for security KRGS met the design brief for the shop front roller doors.

“

KRGS supplies quality security door products, offering the highest level of uncompromising service in the industry.

”
